

March 2010

Fulford Heath Golf Club Course Improvement Project

Background

The membership have given a clear steer for your committee to maintain standards and improve the quality of our golf club. This is one of a number of initiatives that you will see in the coming months.

Course Improvement Initiative

The Course is one of the main key indicators of quality for a golf club and ours is no different. Whilst our greens staff work hard to maintain and improve the course we as members can help. We have long asked members to look after the course by repairing pitch marks and replacing divots. Now, members have suggested that they would be willing to become more involved in other areas.

YOUR COURSE NEEDS

Interested? Please volunteer by adding your name to the lists on the main notice board or give your name to a committee member.

We would appreciate members to volunteer for a number of activities to speed up course improvement .

Divot Filling

Bunker Maintenance

Dead wood clearing

River Clearing

Weeding paths

Weeding flower beds
